

FSN FORUM - DISCUSSION TOPIC NO. 19, 2008

**TRAINING MANUALS/TRAINING RESOURCES ON FOOD SECURITY
05.08 TO 16.08.2008**

Dear all,

FAO is currently supporting the decentralization process of the national food security agenda in Mozambique where our main goal is to guarantee an adequate mainstreaming of food security and nutritional issues into the District Development Plans.

During the FNPP's (FAO-Netherlands Partnership Programme) lessons learned seminar that took place in Mozambique last June, it was identified that a fundamental factor to facilitate this process is to provide adequate training to civil servants at provincial and district level on food security issues.

I am very interested to learn about food security manuals successfully used in other countries for similar purposes/processes. Many thanks in advance for your help.

Best regards,

Alejandro Acosta
